## Work Experience

may 2021 - jun 2021

Freelance Web Developer Laravel  
Kwixeo

Development on the backend of an existing Laravel 8 project.

- Development of a new module to import and export various data from/to CSV and Excel files.
- Development of a customizable dashboard system, allowing each client to choose the widgets and data to be displayed.

mar 2020 - apr 2021

Freelance Web Developer Laravel Vue.js  
Infopro Digital - Paris, France

As a fullstack web developer, I had the opportunity to work on two different projects.

- First project: a platform to put project owners and retailers in touch with each other. I mainly worked on the back-end (REST API with Laravel 7) and I partly helped to develop the front-end (Vue.js).

- Second project: platform for compliance management and risk control in HSE (Health, Safety and Environment).

I participated on the front-end in the development of the new modules (Vue.js).

sept 2019 - dec 2019

Freelance Web Developer  Laravel  Vue.js

Gridky - Paris, France

Real estate investment comparator.

- Migration of the existing site from CodeIgniter 3 to Laravel 6.
- Development of new features
- Setting up Vue.js for the front
- Development of the search interface with Vue.js
- MySQL database schema creation
- Processing and integration of thousands of statistical data from the french statistics bureau (INSEE)
- Configuring instances and setting up deployment in the cloud
- Nginx server management
- Agile approach
- Collaboration with external teams on the development and integration of scrapers

mar 2016 - sept 2018

Web Developer  Symfony  Vue.js

Babbler - Paris, France

Development and maintenance of an application for influencers, reporters and companies, with Symfony 3.

- Migration from Symfony 2 to Symfony 3
- Front-end and back-end development
- Agile approach (Jira)
- Implementation of Vue.js.
- REST API development (with Symfony).
- Global vision of cloud hosting on AWS and interaction with S3 and SQS queues
- Using Elasticsearch and Kibana for content indexing and searching
- Using Jenkins for continuous integration
- MySQL database
- Redis
- Twig templating
- Doctrine ORM

2012 - 2016

Freelance

Various jobs in web development, commerce and formation.

Two attempts to start my own businesses:

- in 2012 with a real estate listings website (homemade PHP, no framework)
- in 2014 selling eliquids with an online store (Wordpress & WooCommerce)

2011 - 2012

Commercial

LTB France - Bobigny (Paris, France)

Estimations, invoices, conversions and customer care.

2011

Real Estate Agent

Fabrice Billaux Immobilier - Tremblay-en-France (Paris, France)

Prospection, visit and estimation of the properties, negotiation seller/buyer.
